Places:-

132 places are available, it is expected that all places will be taken before the closing date.

Targets:-

Andover Archers will be using their very latest acquisition in Target Archery bosses the TargetTech 'Atlas'.

These targets are the very latest in target technology and Andover Archers wish to protect their considerable investment against unnecessary damage caused by archers 'digging' out their arrows from the timber framing. To this end, any archer unable to pull their arrows from the target or frame will inform a judge who will delegate removal to the work party. Archers are requested not to aid removal of their arrows using knives, blades, screwdrivers etc. Any resulting damage to the arrow following its removal will be the responsibility of the archer.

Being foam targets, the use of arrow lubricate is unnecessary. 'Arrow lube' and other brands, solutions, or liquids used to lubricate arrows will have a serious effect on the advanced polymer blend that makes up the foam boss. Archers found using such products, may be asked to leave the shoot.
